"Driving Growth, Resilience, & Competitiveness Through ESG."

About IIMM

"Indian Institute of Materials Management (IIMM)" emerged as an All India Body in 1975 with the merger of three professional associations. The National Association of Materials Management, The Material Management Associations and The Materials Management Association of Hyderabad. It is the National Apex body representing a wide spectrum of professionals engaged in various facets of Material Management, responsible for planning, sourcing, logistics & supply chain management. The institute offers diplomas and degrees in supply chain management approved by AICTE. Through its wide network of 56 branches and 16 chapters IIMM caters to around 9000+ members drawn from public and private sectors and to a large number of professionals across the country. IIMM is dedicated to the promotion of the profession of Materials Management with its multifarious activities, including EDP, seminars, workshops, in-house training programs and consultancy assignment.

About Pune Branch

Founded in 1966, the branch now has over 500 members across Individual and Institutional members from Public & Private sector organizations, Armed Forces and Academia. Pune branch is one of the oldest and most vibrant branches of IIMM, widely known for their innovative programmes implemented during the past years. Pune branch is the first branch to roll out the first Supply Chain Management Awards in 2014. Since then, the Awards has gained great impetus and visibility with reputed organizations participating every year.

About The Seminar

In today's fast-evolving business landscape, Environmental, Social, and Governance (ESG) practices are no longer just about compliance—they are key drivers of growth, resilience, and long-term competitiveness. This one-day seminar brings together MSME leaders, senior managers, and sustainability heads from medium and large manufacturing companies to explore global and Indian ESG trends, practical strategies, and sectoral challenges. Through expert insights, interactive workshops, and peer learning, participants will gain the tools to integrate ESG into their business models, enhance investor confidence, and create long-term value for stakeholders.
